

The Digital Extension of Our Smile.

Introducing the Hotel Marfil Virtual Concierge

Hotel Marfil – Hosting Smiles Since 1970

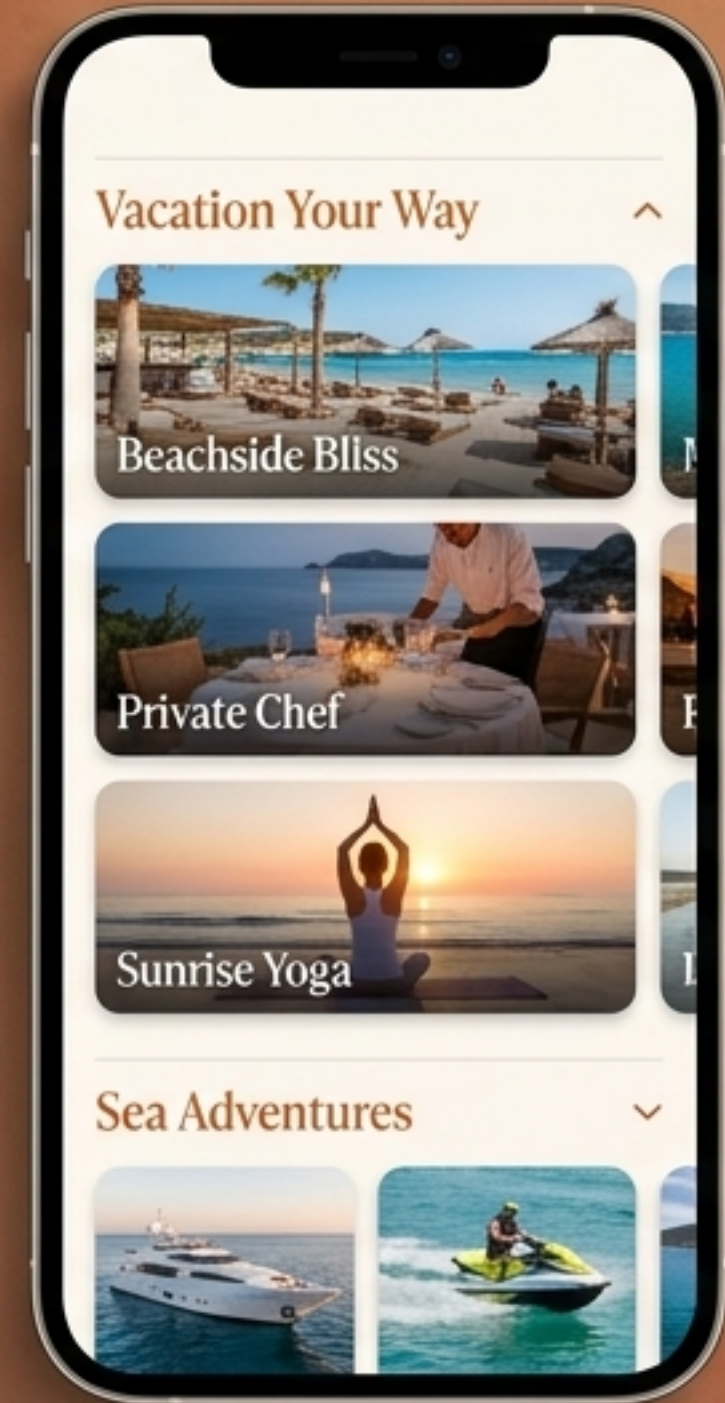

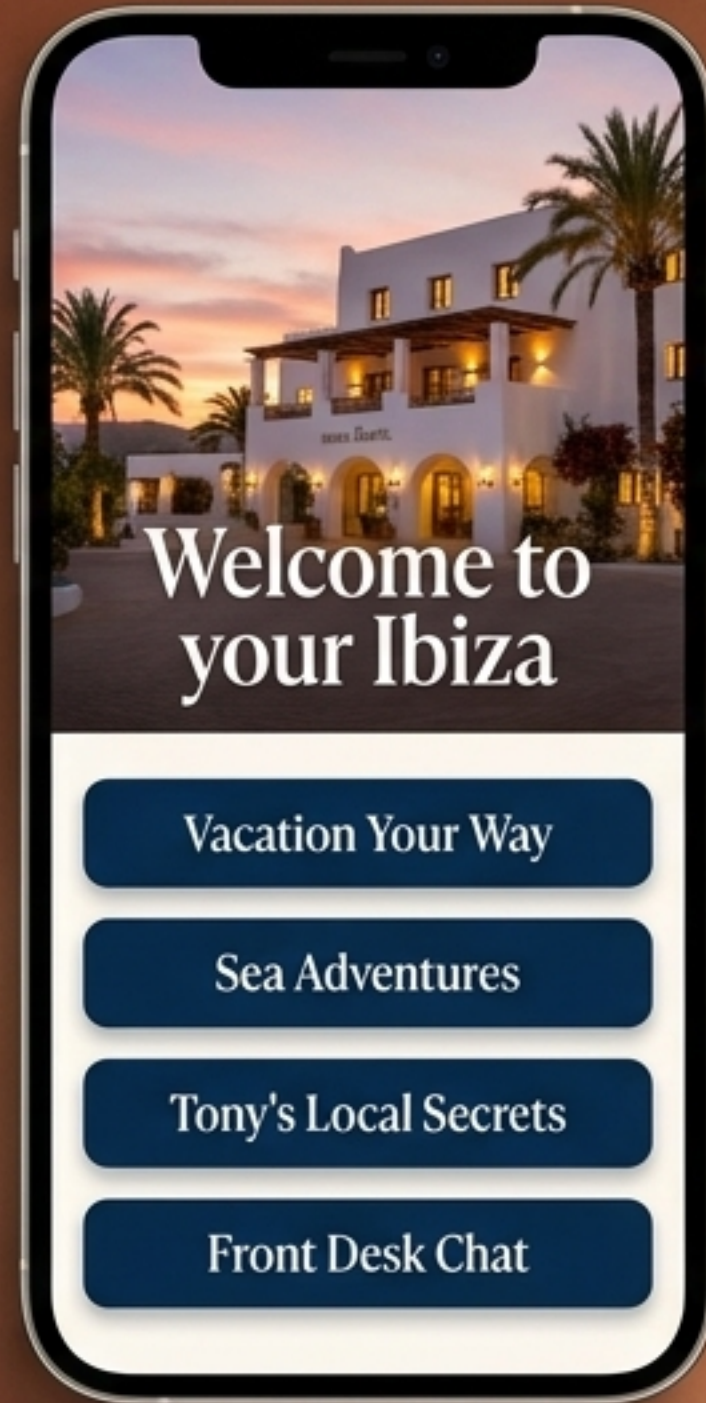

Our Greatest Asset is Our Welcome.

We don't do mass tourism. We don't do large groups. We offer a close, attentive experience where we know our guests' names. Our clients expect us to be the ultimate hosts of the real Ibiza.

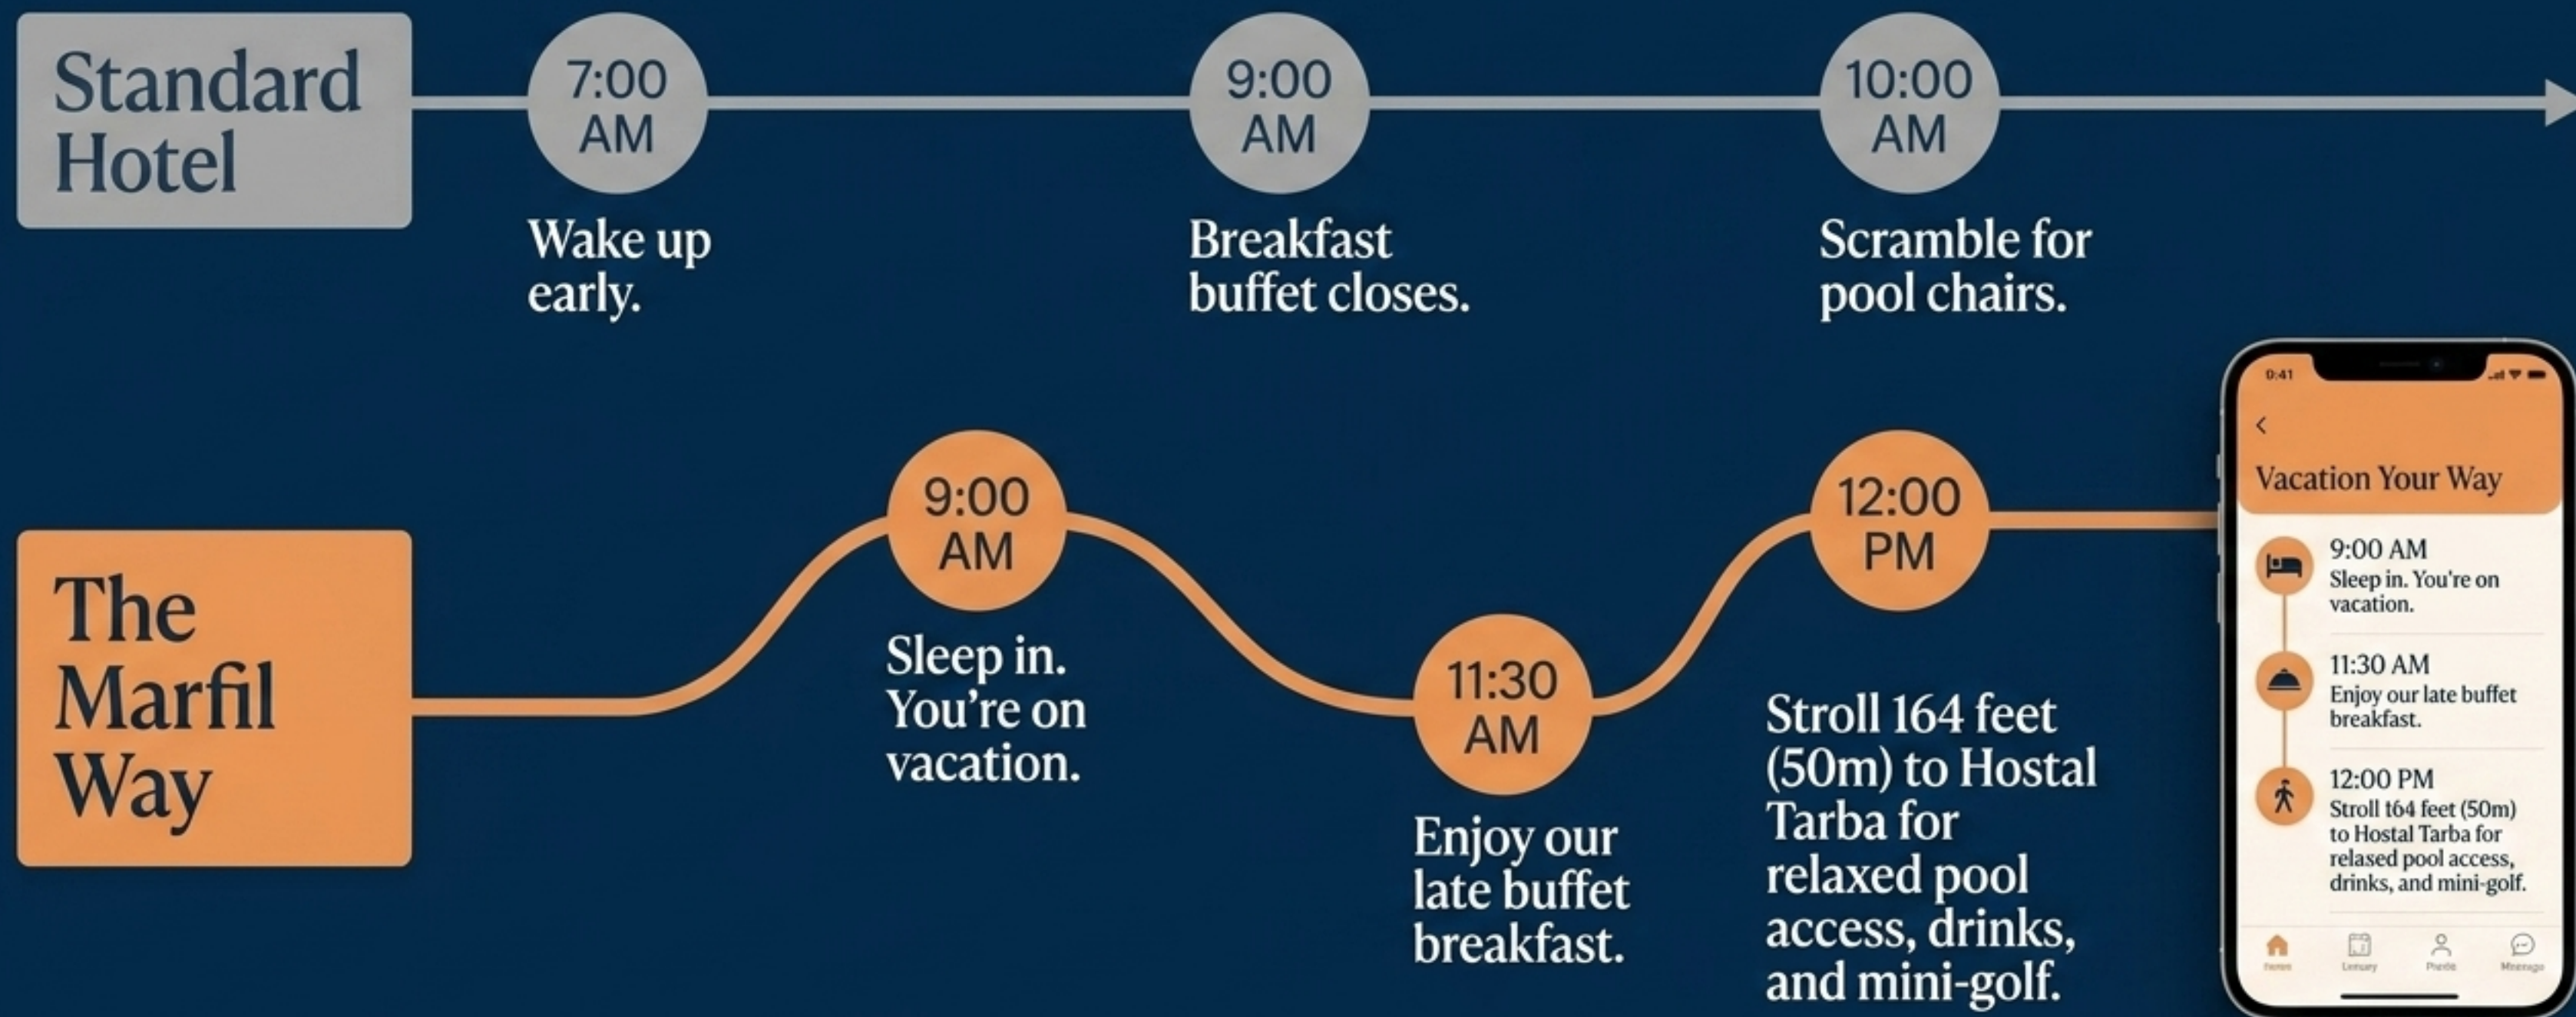

“The staff was incredibly friendly, welcoming, and always helpful... let us open the door to the Ibiza you are looking for.”

**How do we scale this
personal touch
without losing its soul?**

The Pocket Concierge.

Vacation Your Way: The Marfil Schedule.

Sea Adventures: The Bon Oratge Excursions

San Antonio Harbour

The Northern Cliffs

Snorkeling and pristine waters

Sunset Cava

Daily sunset viewings away from the promenade crowds

Es Vedrà

One of the most breathtaking views in the Mediterranean

Book Excursion

Tony's Local Secrets: Curated Expertise.

A guest searches “Beaches in San Antonio” online and gets 4.5 million overwhelming results, outdated bus schedules, and tourist traps.

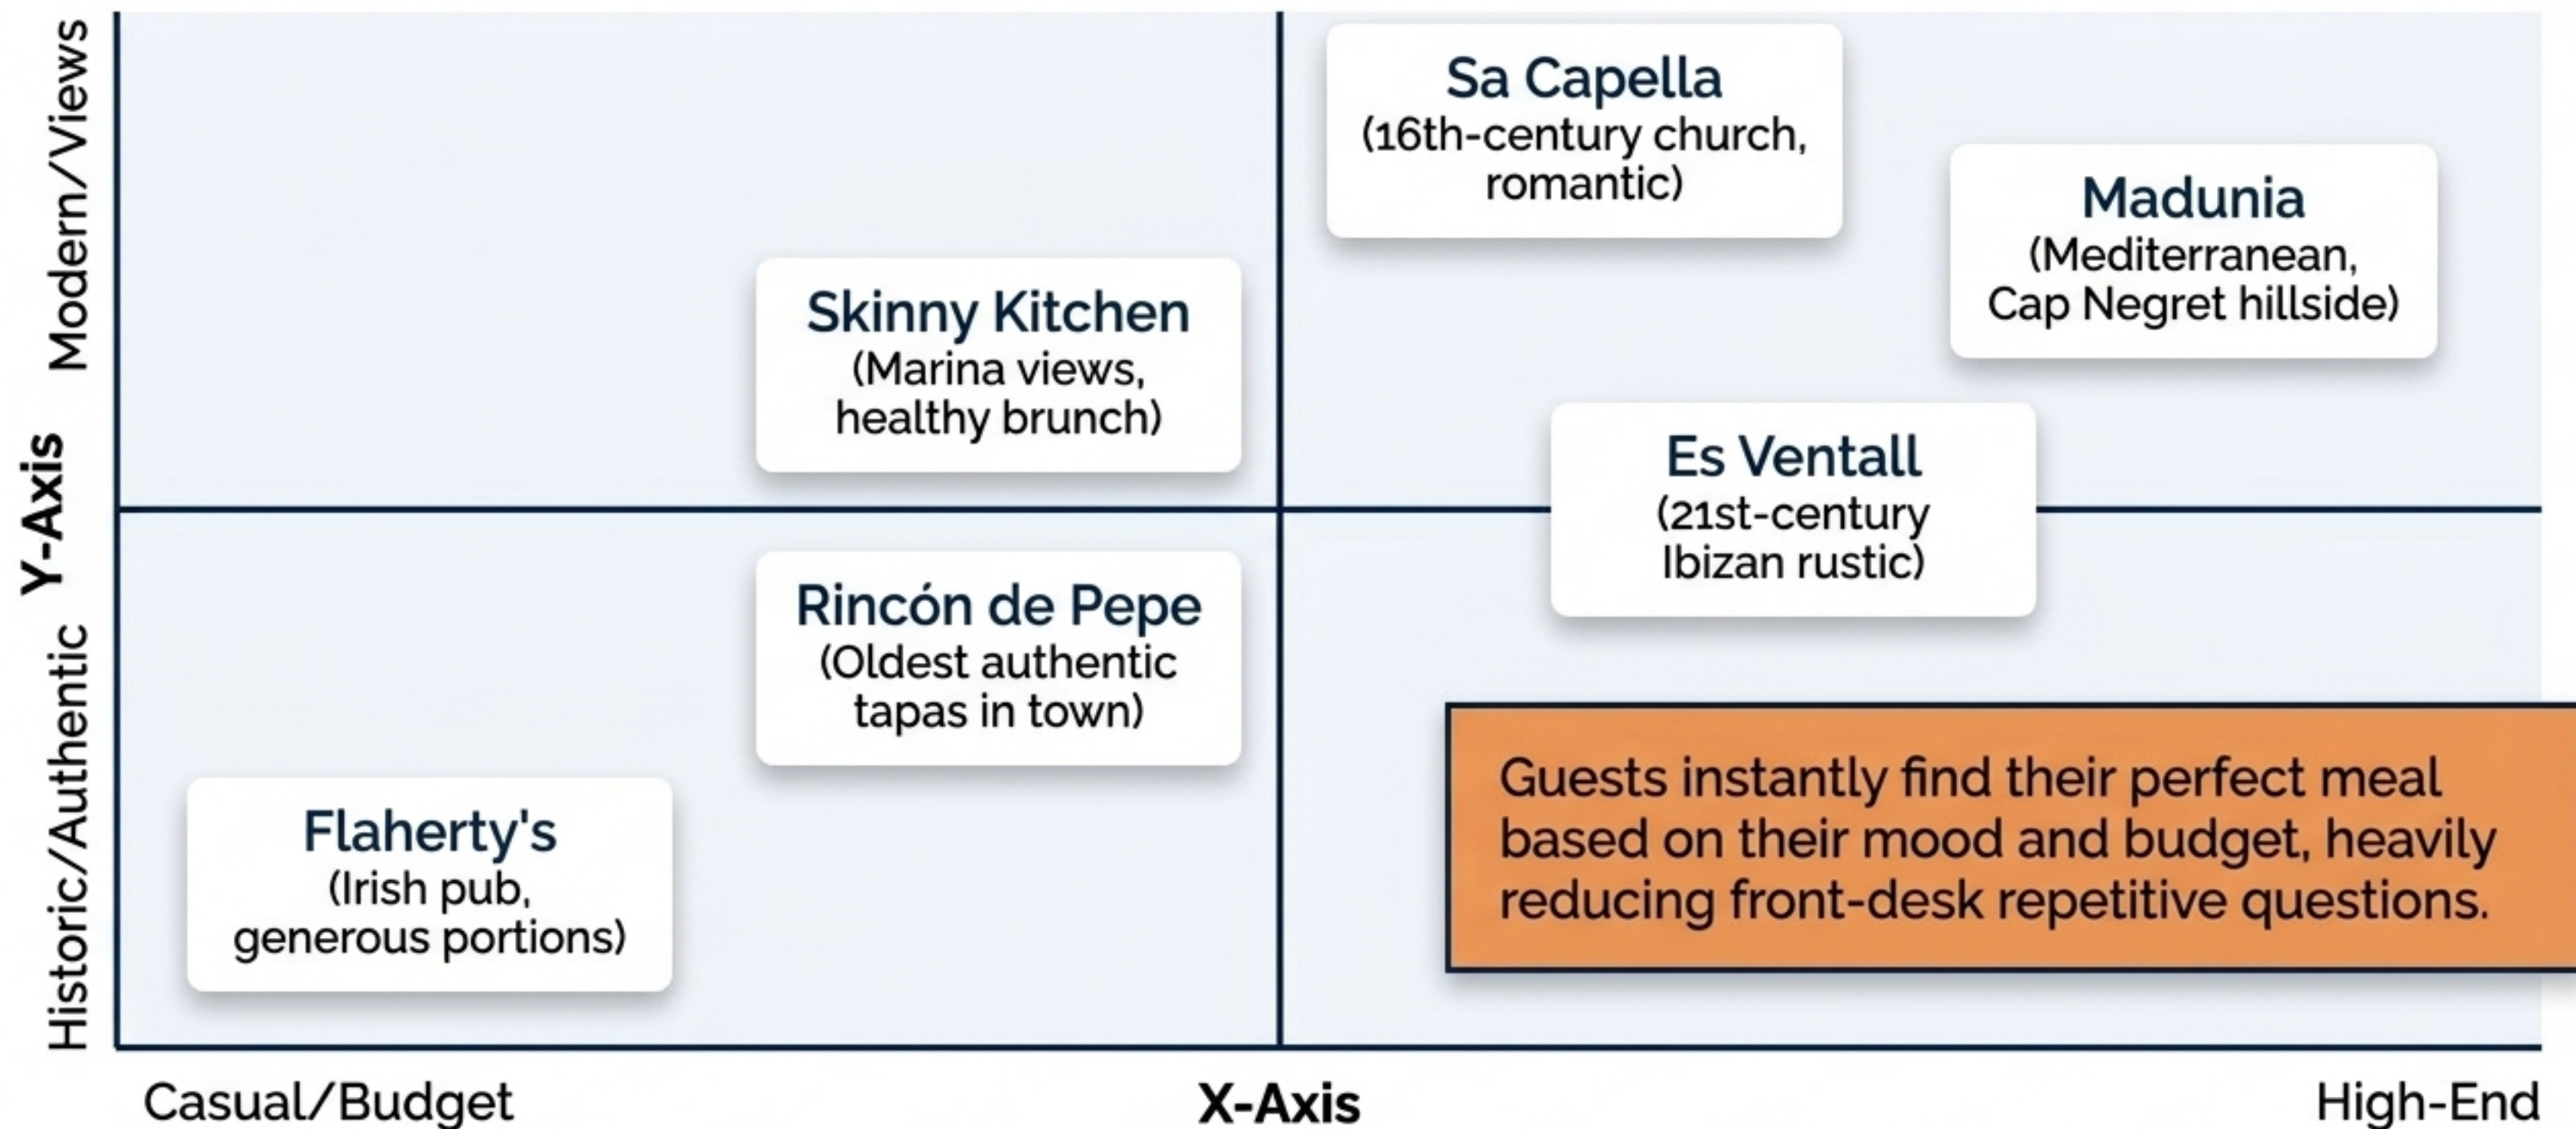

We are digitizing Tony's brain. The app asks what the guest is in the mood for, and delivers exactly the right recommendation.

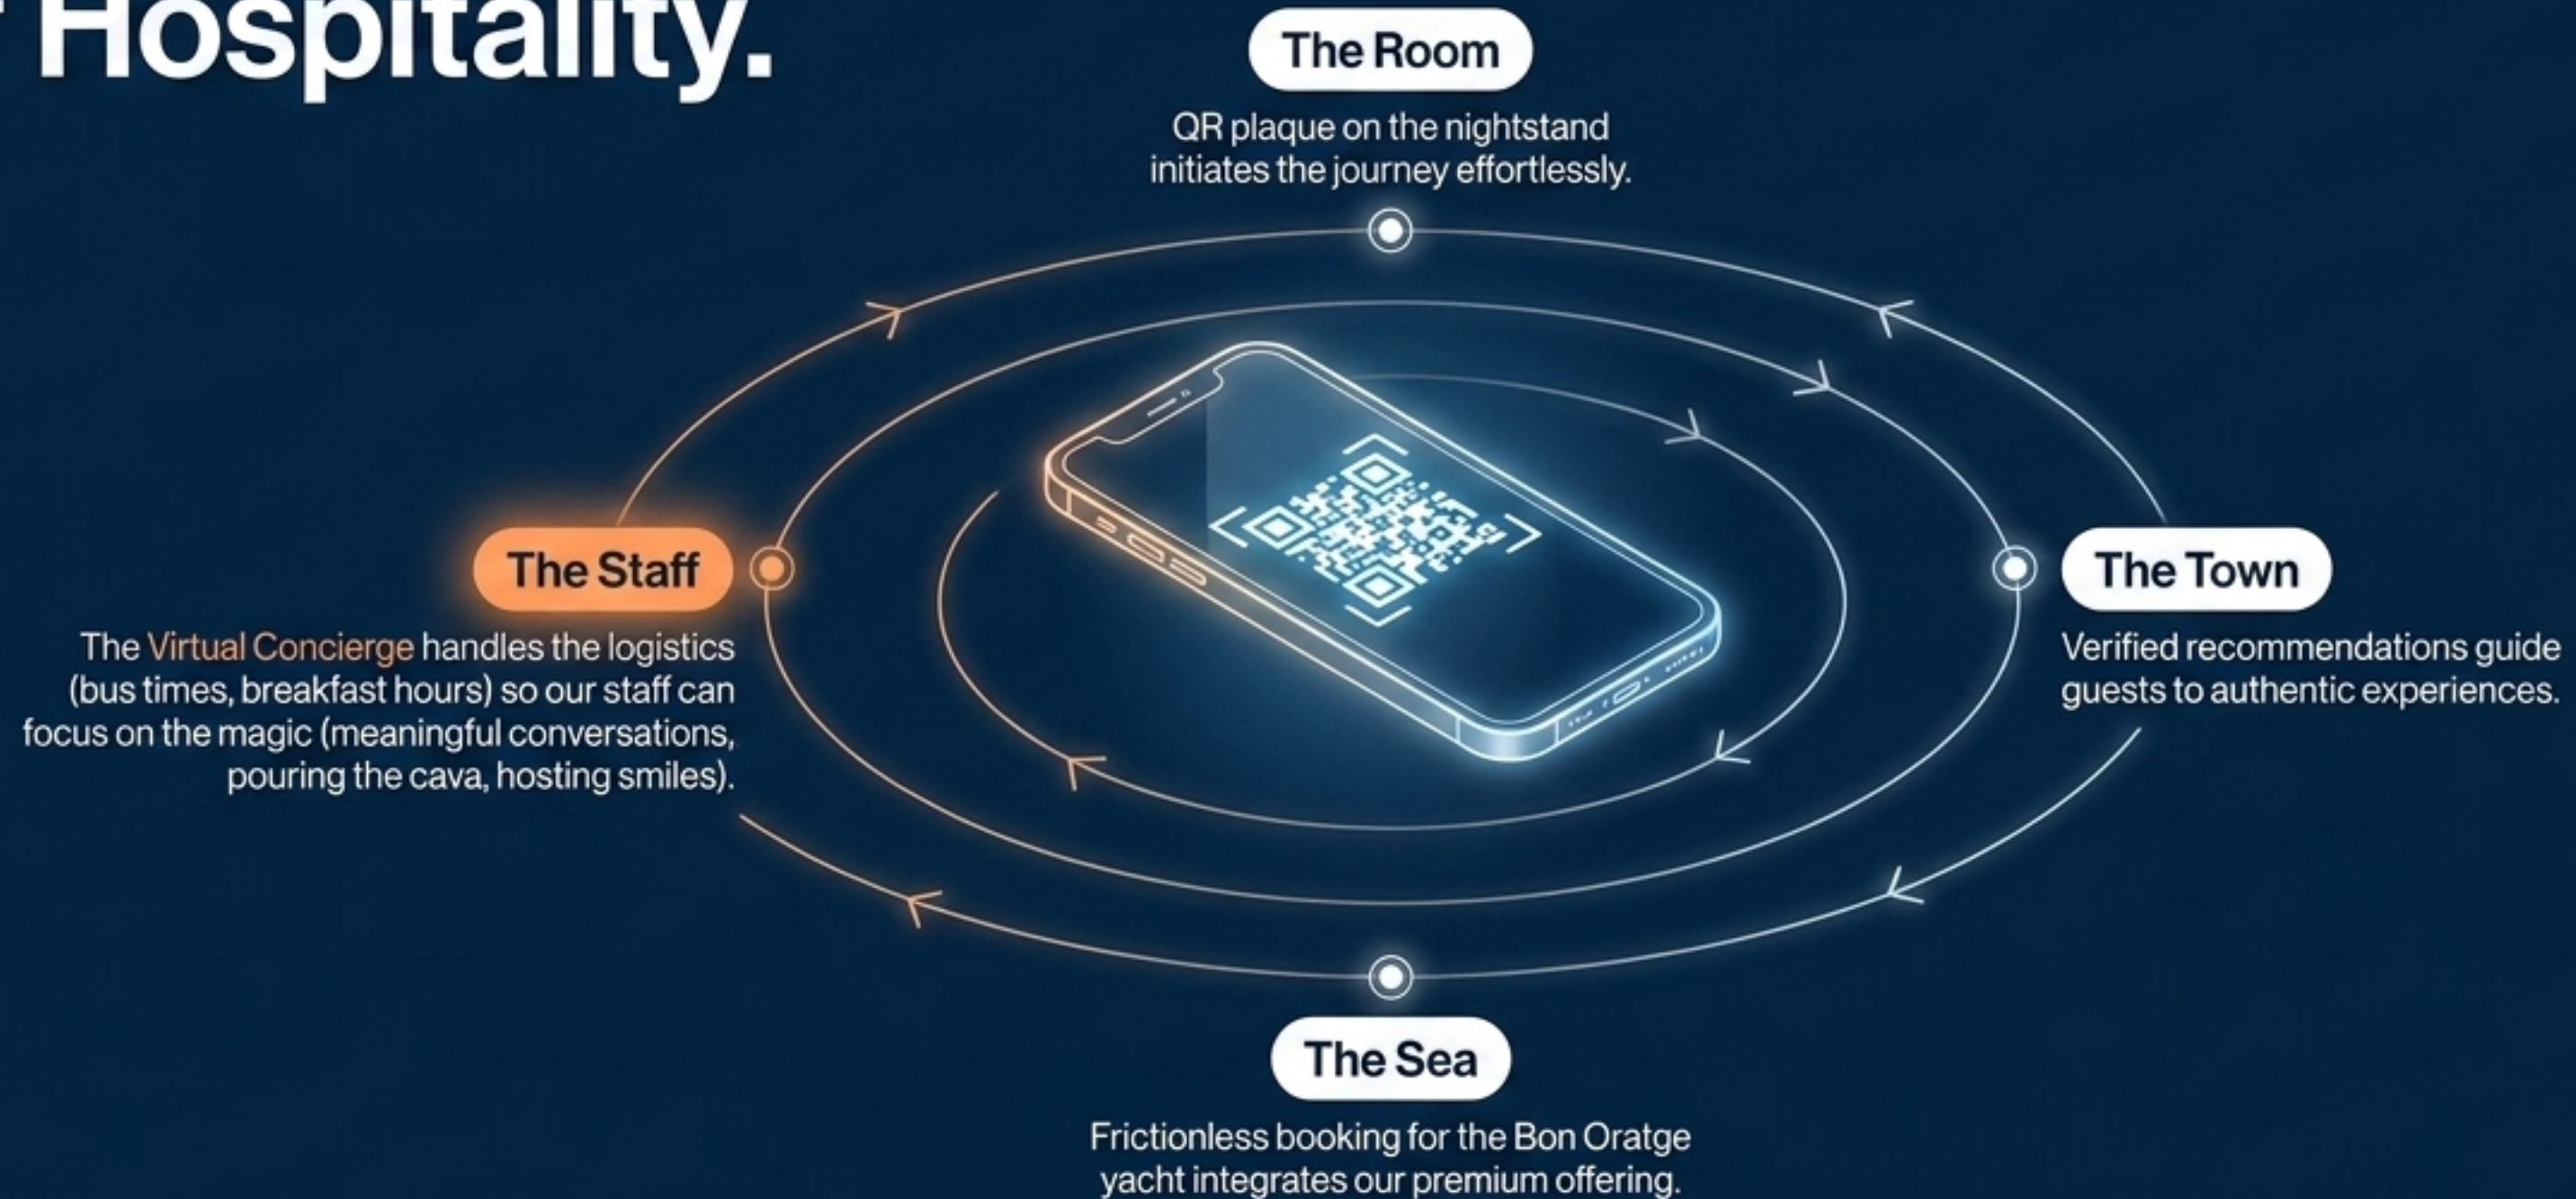

The Perfect Beach for for the Perfect Day

The Dining Diagnostic.

The Ecosystem of Hospitality.

The Virtual Concierge handles the logistics (bus times, breakfast hours) so our staff can focus on the magic (meaningful conversations, pouring the cava, hosting smiles).

Ready for the 2026 Season.

1. Deployment

QR codes placed in all 30 rooms.

2. Staff Enablement

Use the app to guide your own recommendations at the desk.

3. Continuous Curation

We update the app dynamically as Ibiza changes.

Technology doesn't replace the Marfil experience. It puts it directly into our guests' hands.
